Devastated

2583

I'm devastated about TCI Cablevision having created another problem. This time, "MEU." Channel 46 (Mind Expansion University), was switched to Channel 96 (SciFi) due to complaints that Channel 96 could not be received clearly.

MEU shows European news every afternoon in German, French and Spanish. It's the *only* program in our language in TV and not only emotionally vital to us European viewers, but also important to keep up with language, culture and politics in Europe. Please write to TCI to switch MEU to a channel we can receive again.
